

Please Help Save Memerambi State School

Hi,

I am Amanda Daly, (13) from Memerambi, near Kingaroy.

Recently, the local school, Memerambi Sate School has received news that the Education Department are looking to close our local school of 100 years.

I went to Memerambi State School for 3 years and it turned my education around from bad to excellent, I was also voted as School captain in 2005.

Memerambi has been drought-affected for the last 6 years and the drought has made people move away from the area. The community are doing it hard enough without the Government wanting to close the hub of our community, which is our school.

S.O.S – Save Our School, It is sad our school, has just finished celebrating it's centenary celebrations.

R.I.P (1905 – 2006)

Please help the heart of our community of 13 kids, 1 teacher, 1 full time teacher aide and countless other people involved in the school and the community.

Sincerely, Amanda Daly (13), Memerambi
